

PROGRAM PARTICIPANTS

This program is specifically designed to enhance the knowledge of oil heat servicemen, installers, or related personnel, regardless of background or years of experience. Veterans and beginners find the course logical and easy to follow.

PROGRAM CONTENT

The subject matter will be technical in nature, with strong emphasis placed on burner service and troubleshooting system problems.

The program will feature the following Beckett components:

- Beckett AquaSmart 7610 Boiler Temperature Control
- Beckett GeniSys Control, and Contractor Tool
- Beckett CleanCut family of pumps
- Beckett 7586 and 7590 gas controls

With the aid of Power Point, the program will also cover:

- The Beckett Model AF, AFG, and NX oil burners
- Use of the OEM specification book
- Combustion equipment and efficiency testing
- An overview of the CG4 residential conversion burner

Hands-On Training Sessions will include:

- Assembling OEM spec burners
- Programming the GeniSys 7505 Primary Control
- Programming the AquaSmart Boiler Temperature Control
- Combustion efficiency testing (where permitted)

A substantial technical manual on flash drive will be presented to each person in attendance. The flash drive includes training videos, worksheets, tank accessories, commercial oil, commercial gas and residential gas burner and controls. Each attendee will be given a Contractor Tool for the GeniSys primary control.
