

Product Sheet - A/C Ready Kit

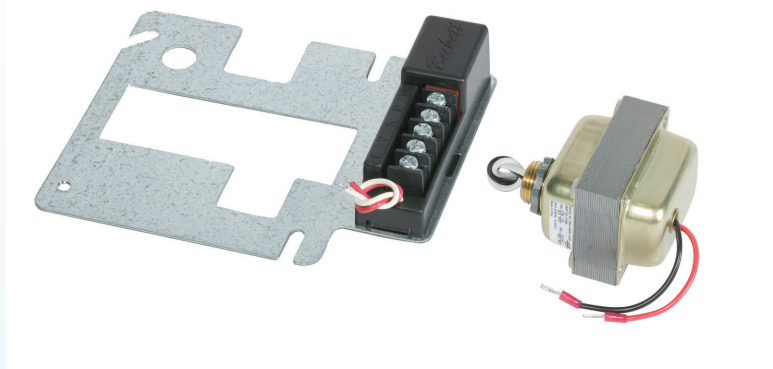

Get Connected!

Description

Homeowners everywhere are using their Smartphones to connect to and control their HVAC systems. The totally redesigned Beckett A/C Ready Kit makes it easy to add an internet connected thermostat to existing oil heating equipment. The A/C Ready Kit adds the "C" terminal needed to power connected thermostats and includes a 40 VA transformer to make sure you have the energy needed to power the connected thermostat of your choice.

Features & Benefits

- Includes the "C" terminal needed to power internet connected thermostats
- Mounts under most common primary controls
- Can be used with oil furnaces or oil boilers
- Totally redesigned circuit with DC relays to prevent buzzing and chattering
