

DC Motors 1/7hp & 1/4hp

Beckett
PARTS & ACCESSORIES

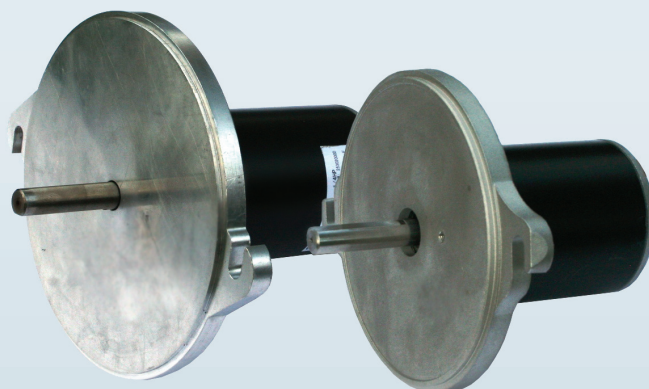

Product Sheet

Description

The Beckett 1/7hp and 1/4hp motors are better than ever. These improved motors are used primarily for pressure washer applications. After 25 years of reliable service the Beckett motors have been refined in several ways. For both the 1/7hp & 1/4hp motors, the 5/16" shafts have been replaced by 1/2" shafts while the couplings and blower wheels have also been standardized. These along with other features will assure you the reliability and performance you have come to expect from Beckett Burners.

Features & Benefits

- More robust 1/2" motor shaft now standard on DC products.
- Improved strain relief and seal.
- Improved cord set replaces 2-wire leads.
- Improved engagement to burner housing.
- Standardized couplings and blower wheels to reduce inventory.

Purchase Information

Part No.	Description
52145U	ADC 12V Motor Unit Pack <i>includes: 22243 Motor, 2999 Blower Wheel, and 2140501 Coupling</i>
52146U	SDC 12V Motor Unit Pack <i>includes: 22244 Motor, 2383 Blower Wheel, and 2154101 Coupling</i>

Specifications

Motor	Burner	Specifications
22243	ADC	1/7 H.P. 13.5 Vdc @ 11.5 Amps (Max.) 3500 RPM Nema 'M' Flange
22244	SDC	1/4 H.P. 13.5 Vdc @ 18 Amps (Max.) 3400 RPM Nema 'N' Flange
